### **DETAILED ACTION**

## Response to Amendment

- 1. This Office action is in response to the amendment filed under 37 CFR 1.116 on July 24, 2006. The amendment has been entered.
- 2. The finality of the previous Office action is withdrawn in light of the new grounds of rejection.

## Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claim 27 is rejected under 35 U.S.C. 102(b) as being anticipated by Chen et al. (USPN 5,702,987).
- 5. In reference to claim 27, Chen et al. (USPN 5,702,987, hereinafter referred to as the "Chen" reference) discloses a similar device. Figure 1E of Chen discloses a semiconductor device in the form of a junction field effect transistor. There is a first gate region (34a-34d) and an epitaxial region (14) having a first conductivity type (n). A first region (26a-26d) is disposed within the epitaxial region (14), under the first gate region (34a-34d) and extends at least half way through the epitaxial region (14). The first
